# LIGHTHOUSE eINVOICING

LIGHTHOUSE BY TORQUE SOFTWARE

# LIGHTHOUSE eINVOICING

## ABOUT LIGHTHOUSE

Lighthouse is a commercial off-the-shelf software system designed to assist organisations in meeting their obligations under relevant legislation and achieve better practice in Governance, Risk, Compliance (GRC), and assurance.

## ABOUT LIGHTHOUSE eINVOICING

Lighthouse eInvoicing will help your organisation manage your invoices more efficiently and meet the Commonwealth's mandate for eInvoicing adoption. eInvoicing will send and receive organisation's eInvoices, provide a centralised place to process all invoices and can integrate them with TechnologyOne's finance software to share invoice data. Our solution comprises of two elements - eInvoicing Access Point (AP) and the service meta-data publisher (SMP) service. These two elements work collaboratively to provide a simple and effective eInvoicing solution.

## Access point and SMP service

The features of Lighthouse's eInvoicing Access Point & SMP service include:

- Australian Accredited
- New Zealand Accredited
- Highly responsive user interface for mobile, tablet or desktop devices
- WCAG 2.0 AA compliance
- Archives Act compliant
- Information system privacy compliant
- Unlimited user management functionality
- Real time dashboard and graphs
- Extensive Audit Log to be exported to human readable format on request
- Ability to download incoming and outgoing Invoices in PDF format
- Australian Business Number (ABN) Integration and validation
- Guaranteed availability of the agreed services of 99.5%
- New Zealand Business Number (NZBN) Integration and validation.

**Torque Software is an ATO Accredited Access Point Provider and preferred eInvoicing Access Point of TechnologyOne.**
